Honorable Mayor and City Commission City of Carthage, Texas

The Annual Comprehensive Financial Report (ACFR) of the City of Carthage, Texas, for the fiscal year ended September 30, 2022, is hereby submitted. The purpose of the report is to provide the Commission, staff, the public and other interested parties with detailed information reflecting the City's financial condition.

The Report

Management assumes full responsibility for the completeness and reliability of the information contained in this report. To provide a reasonable basis for making the representations in these financial statements, management has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, misuse or theft, and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not exceed the benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable assurance rather than absolute assurance that the financial statements will be free from material misstatement. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various City funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Carthage's MD&A can be found immediately following the report of the independent auditors.

The City was required to undergo an audit in accordance with *Government Auditing Standards* issued by the Comptroller General of the United States. Included in the compliance section is the report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*.

Profile of the City

The City of Carthage covers approximately 10.5 square miles in East Texas, near the Louisiana state line. As of the 2020 census, the population was 6,569. Carthage is the county seat of Panola County, Texas.

The City was incorporated in 1948 under a Home Rule Charter. All powers of the City are vested in a City Commission consisting of a mayor and four commissioners who are elected by the citizens for two-year terms of office. The City Manager is the chief executive officer for the City.

The City provides a full range of municipal services, including public safety (police and fire protection); sanitation services; the construction and maintenance of highways, streets, and infrastructure; planning and zoning; recreational activities and cultural events; and general administrative services. In addition, water and wastewater services are operated under an Enterprise Fund concept, with user charges set to ensure adequate coverage of operating expenses and payments on outstanding debt.

Also included in this report are two component units: Carthage Economic Development Corporation (CEDC) and Carthage Improvement Corporation (CIC). Both are non-profit corporations organized to promote and develop new and expanding businesses and each is funded by a ¹/₄ percent sales tax collected by the City. The CIC can also undertake municipal infrastructure improvements and other City projects. These corporations' financial statements are blended with the City's basic financial statements as special revenue funds since they meet the criteria set forth in GASB's Codification of Governmental Accounting and Financial Reporting Standards.

The City enacts the budget through passage of an ordinance prior to the start of each fiscal year. This budget serves as the foundation for the City of Carthage's financial planning and control. Annual budgets are prepared for the general fund, debt service fund, hotel/motel tax fund, Carthage Economic Development Corporation and Carthage Improvement Corporation. The City Manager is authorized to transfer resources within each department; Commission approval is required for all other transfers.

Local Economy

The City has a diversified economy that includes one of the largest proven natural gas fields in the United States. In addition to plants processing petroleum and manufacturing or servicing oil field equipment, a major poultry processing plant and a plastic cup manufacturing plant are also located within the City. Additionally, Carthage is the home of Louisiana Pacific which, although it is located just outside the city limits, is a utility customer. The economic condition and outlook of the City have been steady during the past ten years. However, approximately 13% of the City's property tax base is represented by mineral values, and the City's economy is vulnerable to changes in natural gas values.

Long-term Financial Planning

The City expects continuing growth through the diversification of industry. The City offers industrial and business prospects, a growing labor force available at competitive wage rates, adequate and reliable utilities offered at affordable prices, a ready market of office and industrial facilities, quality schools and advanced educational facilities.

Relevant Financial Policies

The City has formally adopted a fund balance policy which states that the City will maintain a minimum of four months of average general fund operating expenditures in unassigned fund balance. The City strives to maintain sufficient reserves to ensure its ability to maintain services at a consistent level and respond to the demands of its economy.

In accordance with the Public Funds Investment Act, the City invests funds prudently and has adopted an investment policy reviewed annually by the City Commission as prescribed by State law. Staff provides a quarterly report of investments for Commission review. The City's current investment practice is limited to the purchase of certificates of deposit.

Major Initiatives

For the Current Year. The fiscal year started off with the completion of an all-abilities park on Bird Drive across from Panola College, College View Park. This beautiful park has drawn visitors from miles away. The city was recognized by TML and awarded the 2022 Municipal Excellence Award for this project. Carthage Improvement Corporation and Carthage Economic Development Corporation committed a total of \$300,000 to the project. This project was completed early in FYE 2022 with additional funding by the City and donations of over \$340,000. The total cost of the park was approximately \$650,000. Carthage Improvement Corporation also committed \$350,000 to assisting Panola College in installing turf to one of the baseball playing fields which was completed in January 2023.

The Carthage Fire Department is a very vital part of the City. It has six full-time firefighter employees and 46 volunteer firefighters. The fire department complies with and is regulated by the Texas Commission on Fire Protection, and the department equipment is continually maintained and kept in a constant state of readiness. Training and drills are a regular part of membership in the fire department. The department maintains a Fire Protection Rating of Class II through the Insurance Service Organization. A majority of the equipment is kept up to NFPA Standards. Our Chief, Brodie Akin, has served the department for 63 years, of which 53 have been as Chief, and has the respect and dedication of the firemen, which makes for an excellent volunteer department. As of this year, the Fire Department has four firemen who hold investigator and inspection licenses.

The Police Department is also a very vital department within the City of Carthage. We have a Chief of Police, Assistant Chief, Investigator and 14 patrol officers. We have five

dispatchers, an Administrative Secretary to the Chief and an Animal Control Officer. In our Municipal Court, we have a part-time Judge and a full-time Court Clerk.

The Main Street program, under the direction of Cindy Deloney, continues to improve each year. For the 20th consecutive year, the program was awarded the designation of a National Main Street City. Cindy has been successful in bringing several new events to downtown and has also formed a working downtown group of merchants who strive together to make the downtown a better place to shop. The Carthage Main Street Youth Advisory Council (YAC) was formed in April 2016 with 12 members, and by 2017 it was already up to the max of 20 members. Each year this council is tasked with planning an event and a project, as well as volunteering for both Carthage Main Street and Panola County Chamber of Commerce events, with their officers also being Junior Chamber Ambassadors. Each member also must volunteer two hours per semester working in the Carthage Main Street office.

The City of Carthage continues the programs needed to meet the citizens' needs for services and to safeguard the environment, in conformity with applicable federal and state standards.

For the Future. The budget for the General Fund for the 2022-2023 year is 18.5% more than the prior year. Revenue is budgeted to be approximately 8% higher than that of the prior year. This increase is based on actual sales tax revenue performance as compared to budget. Citizens in Carthage depend heavily on the income from the oil and gas industry and related service companies. Budgeted expenditures reflect an overall loss \$700,000; the loss represents use of prior year equity toward much-needed renovations at our Police and Fire Station. The 2023 budget also includes \$400,000 to fund street repairs.

In the year ending 2022, the City of Carthage began the first of many projects for our water and sewer departments. The sewer plant has begun the first of a two-phase rehab, the total project is estimated to cost between \$4-5 million. Plans are to complete phase one by the end of 2023. An estimated \$1.2 million has been committed to completely rehabilitate and paint all three of our elevated storage tanks. Another exciting project for summer of 2023 is the installation of new smart water meters for our residents. The City's future plans also include a makeover to our existing water treatment plant.

Carthage continues to be a great place to live and work. With the guidance of a strong and stable City Commission and the dedicated employees of the City we will maintain the services and economic development needs of our community.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Carthage for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2021. This was the 23rd consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the Annual Comprehensive Financial Report on a timely basis was made possible by the dedicated service of the entire staff of the City Accountant and her department along with our independent auditors. We would also like to express sincere appreciation to all employees who contributed to its preparation.

In closing, the City of Carthage will strive to be a good community partner to business and residents. We will continue to maintain and provide all services, constantly striving to do so in the most effective and economic way possible. The things that we strive to achieve for the good of Carthage are due to state/federal mandates are only possible through the stability of the Carthage City Commission. The City Commission, under the leadership of Mayor Olin Joffrion, has always been available to the citizens of Carthage. I feel confident we will continue to see the cooperation, leadership and stability from the current City Commission that we have always maintained. I applaud their unselfish efforts and dedication of their time and energy to the betterment of the City of Carthage.

Sincerely,

Stephen K. Williams, cpa

Independent Auditors' Report

To the Mayor and City Commission City of Carthage, Texas 812 West Panola Carthage, Texas 75633

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Carthage, Texas ("the City"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the City of Carthage, Texas' basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Carthage, Texas as of September 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of City of Carthage, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

City of Carthage, Texas' management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Carthage, Texas' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free

from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, schedule of the City's net pension liability, schedule of City pension contributions, schedule of the City's total OPEB liability and schedule of City OPEB contributions identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Carthage, Texas' basic financial statements. The accompanying combining nonmajor fund financial statements, and budgetary comparison schedules are presented for purposes of additional analysis and are not required parts of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and

reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 10, 2023 on our consideration of City of Carthage, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Carthage, Texas' internal control over financial reporting and compliance.

City of Carthage, Texas

Management Discussion and Analysis For Year Ended September 30, 2022 (Unaudited)

Our discussion and analysis of the City of Carthage's financial performance provides an overview of the City's financial activities for the year ended September 30, 2022. Please read it in conjunction with the transmittal letter beginning on page 5 and the City's financial statements, which begin on page 25.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 25-27) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 28. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds.

Reporting the City as a Whole

The Statement of Net Position and the Statement of Activities

Our analysis of the City as a whole begins on page 25. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in it. You can think of the City's net position—the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources—as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the City's property tax base and the condition of the City's roads, to assess the overall health of the City.

In the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

• Governmental activities—Most of the City's basic services are reported here, including the police, fire, general administration, streets, parks, and sanitation. Property taxes, sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.

• Business-type activities—The City charges a fee to customers to help it cover all or most of the cost of certain services it provides. The City's water and sewer system services are reported here.

Reporting the City's Most Significant Funds

Fund Financial Statements

Our analysis of the City's major funds begins on page 28. The fund financial statements provide detailed information about the most significant funds—not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Commission establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money. The City's two kinds of funds—governmental and proprietary—use different accounting approaches.

- Governmental funds—Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.
- Proprietary funds—When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's proprietary fund is the same as the businesstype activities we report in the government-wide statements, but provides more detail and additional information, such as cash flows.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$55,141,219 at the close of the most recent fiscal year. Table 1 presents a condensed statement of net position for the current and prior year.

Table 1 Net Position

	Governmental Activities		Business-ty	pe Activities	Total

The largest portion of the City's net position (78.50%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional \$5,234,590 of the City's net position (9.49%) represents resources that are subject to external restrictions on how they may be used.

Annual financial results in governmental activities increased net position by \$1,716,756, and the business-type activities increased net position by \$488,513 during the year.

Governmental Activities

Governmental activities increased the City of Carthage's net position by \$1,716,756. See discussion of changes under the **Governmental Funds** heading on the next page.

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from each related program reported to the right. The result is a Net (Expense)/Revenue. This presentation is designed to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants. Some of the individual line item revenues reported for each function are:

Public safety	Fines, arrest fees, court cost, state police grants
Sanitation	Solid waste collection fees
Building inspections	Building permits, occupational licenses, inspections
Streets	User fee paid by the Water and Sewer Fund
Culture/recreation	Community house rent

All other governmental revenues are reported as general. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose.

The cost of all governmental activities was \$9,786,755. However, 16.39% (\$1,603,652) of these costs were paid by those who directly benefited from the programs; \$89,971 was paid by grants and contributions, and the remaining 82.72% (\$8,095,132) was paid by general revenues such as taxes and franchise fees.

The significant functions of City government and their related net expense (revenue) are presented in Table 3.

Total governmental activities	\$ 1,603,652	\$ 87,971	\$ 9,786,755	\$	(8,095,132)

Business-type Activities

The business-type activities increased the City of Carthage's net position by \$488,513. Water and sewer operating revenues were less than the prior year by \$27,463, and operating expenses were up \$317,897. Grant revenues were up \$3,149.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$13,251,221. Of this total, \$3,867,107 is restricted due to external limitations on its use, such as by debt covenants, legal restrictions, or intention of grantors. A total of \$32,291 of fund balance is considered non-spendable because it has been used for inventory and prepaid items. A total of \$80,193 of fund balance is considered assigned for future public safety purchases. The remaining \$9,271,630 is unassigned and can be used for any lawful purpose.

The general fund is the main operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the general fund is \$9,271,630, while total fund balance is \$9,544,4183. As a measure of the general fund's liquidity, it may be useful to compare the unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 128.53 percent of total general fund expenditures, while total fund balance represents 132.31 percent of that same amount.

General fund revenues were more than the prior year mainly due to increased sales tax revenues. Sales tax collections increased by approximately 17.5% over the prior year. Most of this increase was due to oil and gas related activity, which was approximately 30% greater than prior year collections. Retail sales, which account for approximately 40% of sales tax collections, were also up approximately 7% compared to the prior year. Grants and contributions decreased by \$887,760 in the current year due to a decrease in Covid related funds over the previous year.

General fund expenditures overall were less than the previous year's amounts by \$239,877. Revenue and expenditures from sanitation services decreased due to a contract change. The net effect on 2022 statements is a net increase in income of \$176,386. The increase in General Fund expenditures for 2022 without the effect of the sanitation changes was \$773,688. Part of the increase is due to a 4% raise over the prior year. This would account for approximately \$100,000 of the overall increase. The Street Department spent over \$100,000 more on street repairs than in 2021. Street repairs continue to be a priority for the City. In Development Activities the Carthage Economic Development Corporation purchased land of approximately \$600,000 that accounted for the increase in that category. This property will be used for future economic development.

Proprietary Funds

The City's water and sewer fund is its proprietary fund. The water and sewer fund financial statements provide the same type of information found in the government-wide financial statements, but in more detail. The total net position of the water and sewer fund increased by \$488,513. Revenues remained consistent compared to prior year amounts. A 4% raise created approximately \$50,000 more in payroll expenses over the prior year. Maintenance and repair items were up over \$100,000. Chemical costs continue to increase and were up over \$75,000 this year. The contract for raw water purchases was renewed this past year and the rate was doubled by our supplier. This created an additional cost of over \$100,000.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the City Commission amended the General Fund budget as needed. Total General fund expenditures were less than appropriations, due to unexpected decreases in general governmental, public safety, streets and non-departmental costs.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At September 30, 2022, the City had \$47,114,491 invested in capital assets including police and fire equipment, buildings, park facilities, roads, and water and sewer system. This represents a net decrease of \$1,622,763, or 3.33%, less than last year. Table 4 presents a summary of the City's capital assets.

Table 4Capital Assets at Year-End

Major capital asset events during the current fiscal year included the following:

Asset Acquisitions	
 College View Park – Final Completion 	\$195,860
Vehicles,	\$181,137
Wastewater Treatment Plant Improvements - CIP	\$229,178

•	Elevated Storage Tanks Improvements – CIP	\$128,950
•	Land for economic development	\$617,346

Additional information on the City of Carthage's capital asset activity can be found in Note D on pages 44-45 of the notes to the financial statements.

Debt

At year-end, the City had \$9,793,205 in long-term debt compared to \$7,806,753 last year, representing an increase of \$1,986,452 or 25.45% from the prior year. Table 5 presents a summary of the City's outstanding debt.

Table 5Outstanding Debt at Year-End

Additional information on the City of Carthage's long-term debt activity can be found in Note G on pages 46-48 of the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's FY2022-2023 budget for its general fund reflects an anticipate deficit of \$700,000. This deficit is for planned renovations to the police/fire building. The budget includes an increase in revenues of \$590,494. This includes an increase in sales tax projections of \$416,250 and an increase in expected property tax collections of \$143,211. All other revenue budgets remained fairly consistent with prior year amounts.

The expense budget for FY2022-2023 increased by \$1,290,494. Planned renovations to the police/fire building account for \$700,000 of the increase. The increase in the remainder of the budget was due primarily to payroll and related expenditures.

Sales tax revenue remained strong throughout the 2022 fiscal year. Increased prices in oil and gas have resulted in an increase of related activities. This has helped keep sales tax collection strong. The 2023 budget anticipates that sales tax revenues will be consistent with 2022. Collections so far in fiscal year 2023 are approximately 20% higher than prior year. We continue to keep reserves strong through strong leadership and fiscal management.

THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Secretary's Office at 812 W. Panola, Carthage, Texas 75633.

A. <u>Summary of Significant Accounting Policies</u>

The combined financial statements of City of Carthage, Texas (the "City") have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The City's basic financial statements include the accounts of all its operations. The City evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the City's reporting entity, as set forth in Section 2100 of GASB's "Codification of Governmental Accounting and Financial Reporting Standards," include whether:

- the organization is legally separate (can sue and be sued in its name)
- · the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization's board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City
- the exclusion of the organization would result in misleading or incomplete financial statements

The City also evaluated each legally separate, tax-exempt organization whose resources are used principally to provide support to the City to determine if its omission from the reporting entity would result in financial statements which are misleading or incomplete. The GASB Codification requires inclusion of such an organization as a component unit when: 1) The economic resources received or held by the organization are entirely or almost entirely for the direct benefit of the City, its component units or its constituents; and 2) The City or its component units is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the organization; and 3) Such economic resources are significant to the City.

Based on these criteria, following is a brief review of each component unit addressed in defining the government's reporting entity. Additionally, the City is not a component unit of any other reporting entity as defined by the GASB Codification.

Carthage Economic Development Corporation is a nonprofit corporation organized to promote and develop new or expanding employment rolls within the City of Carthage or adjacent areas of Panola County. The economic benefits provided by the corporation will benefit the City by stimulating the need for housing, retail sales, entertainment, etc. within the City. The City Commissioners appoint the governing board and a majority of its members are City Commissioners. The City Commissioners that are also members of the corporation's board comprise a majority of the City Commissioners. The City Commission must also approve its budget. The services provided by the corporation are almost entirely for the benefit of the City. The 1/4 percent sales tax that funds Carthage Economic Development Corporation is received by the City from the State and is passed to the corporation. The corporation's financial statements are "blended" with the City of Carthage's Basic Financial Statements as a Special Revenue Fund. Complete financial statements for Carthage Economic Development Corporation at City Hall, 812 W. Panola, Carthage, TX 75633.

Carthage Improvement Corporation is a nonprofit corporation organized to accomplish the same objectives as the Carthage Economic Development Corporation, as well as municipal infrastructure improvements and other projects that contribute to the quality of life within the City. The City Commissioners appoint the governing board and a majority of its members are City Commissioners. The City Commissioners that are also members of the corporation's board comprise a majority of the City Commissioners. The City Commission furnishes guidelines for its budget appropriations. The services provided by the corporation are almost entirely for the benefit of the City. The 1/4 percent sales tax that funds Carthage Improvement Corporation is received by the City from the State and is passed to the corporation. The corporation's financial statements are "blended" with the City of Carthage's Basic Financial Statements as a Special Revenue Fund. Complete financial statements for Carthage Improvement Corporation may be obtained at City Hall, 812 W. Panola, Carthage, TX 75633.

- 2. Basis of Presentation, Basis of Accounting
 - a. Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities include the financial activities of the overall government. Eliminations been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The City does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The City reports the following major governmental funds:

General Fund. This is the City's primary operating fund. It accounts for all financial resources of the City except those required to be accounted for in another fund.

The City reports the following major enterprise fund:

The water and sewer fund accounts for the operations of the water and sewer system. Debt service and capital improvements related to water and sewer operations are also accounted for in this fund.

b. Measurement Focus, Basis of Accounting

Government-wide and Proprietary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City does not consider revenues collected more than sixty days after its year-end to be available in the current period. Revenues from

local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

3. Financial Statement Amounts

a. Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Statutes authorize the City to invest in certificates of deposit and other available bank investments provided that approved securities are pledged to secure those funds on deposit in an amount equal to the amount of those funds. In addition, the City can invest in direct debt securities of the United States unless law expressly prohibits such an investment.

Investments are recorded at cost, which approximates fair value. All investments are short-term and have a maturity date of one year or less.

b. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

The City may assess penalties and interest. The assessment ratio of the City is 100% of market value. The assessed value for the roll of October 1, 2021, upon which the 2022 fiscal year levy was based was \$433,196,239. The tax assessment of October 1, 2021 set a tax levy at \$.6014 per \$100 of assessed valuation. The 2022 fiscal year tax levy was \$2,605,242.

Allowances for uncollectible tax receivables within the General Fund are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the City is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. The allowance for estimated uncollectibles is 85% of the total delinquent taxes receivable at September 30, 2022.

c. Inventories and Prepaid Items

Inventories on the balance sheet are stated at cost. Inventory items are recorded as expenditures when they are consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the purchase method.

d. Capital Assets

Capital assets are reported in the applicable governmental or business-type activities column in government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their acquisition value on the date received. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Assets capitalized, not including infrastructure assets, have an original cost of \$5,000 or more and over three years of useful life. Infrastructure assets capitalized have an original cost of \$250,000 or more. Depreciation has been computed on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Asset Class	Estimated Useful Lives
Infrastructure	30
Buildings	40-50
Building Improvements	40-50
Equipment	5-10

e. Receivable and Payable Balances

The City believes that sufficient detail of payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates the payable balances. Note D provides a disaggregation of receivable balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

f. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to or deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

g. Other Post-Employment Benefits (OPEB)

The total OPEB liability of the Texas Municipal Retirement System (TMRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits and OPEB expense. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as- you-go plan and all cash is held in a cash account.

h. Deferred Outflows and Inflows of Resources

In addition to assets, the statements of financial position (the government-wide and proprietary fund Statement of Net Position and governmental fund balance sheet) will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets and/or fund balance that applies to one or more future periods and so will not be recognized as an outflow of resources (expenses/expenditures) until

then.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time.

i. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability for the fund that will pay it. All vacation must be used or sold back to the City by December 31 of each year. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

j. Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The exception is a \$450,000 street usage fee that the water and sewer fund pays to the general fund annually. Indirect charges have been eliminated in the government-wide statements. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

k. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in financial statements and accompanying notes. Actual results may differ from those estimates.

i. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the City Commission. Committed amounts cannot be used for any other purpose unless the City Commission removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the City Commission. Commitments are typically accomplished by a formal resolution. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned Fund Balance - represents amounts which the City intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the City Commission or by the City Manager Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower

than the general purposes of the City itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

It is the goal of the City to achieve and maintain an unassigned fund balance in the general fund equivalent to not less than 4 months of annual operating expenditures. The City's fund balance met this goal at September 30, 2022.

4. Budgetary Data

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

Formal budgetary integration is employed as a management control device during the year for the general fund, debt service fund, and three special revenue funds (Carthage Economic Development Corporation, Carthage Improvement Corporation and Hotel Occupancy Tax Fund). These budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

Project length plans are adopted for all capital projects funds.

The City Commission approves, by ordinance, the level of budgetary control by function and activity within an individual fund (general government, public safety, etc.). Budgetary controls are imposed at the fund level and require Commission approval for amendment.

Appropriations lapse at year-end and encumbrances are not reported as expenditures in the current year budgetary presentations.

5. Implementation of New Standards

In the current fiscal year, the City implemented the following new standards. The applicable provisions of the new standards are summarized below. Implementation is reflected in the financial statements and the notes to the financial statements.

GASB Statement No. 87, Leases

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain leased assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lesse is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The City's lease activity is not material to the financial statements. Therefore, no lease liability has been recorded.

GASB Statement No. 99, Omnibus 2022

The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The practice issues addressed by this Statement are as follows:

- Classification and reporting of derivative instruments that do not meet the definition of either an investment or a hedge
- Guidance clarification for short-term leases when there is a modification of terms
- Considerations for public-private partnerships (PPP) terminology as well as recognizing installment payments and transferring underlying PPP assets
- Clarifications of subscription-based information technology arrangement (SBITA) terms, and liability measurement and recognition
- Disclosures related to nonmonetary transactions
- Certain provisions of GASB Statement No. 34
- Pledges of future revenues when resources are not received by the pledging government
- · Terminology updates related to deferred inflows and outflows of resources and net position
- · Resource flows statements terminology related to GASB Statement No. 53
- Accounting for SNAP distributions
- Requirements related to the extension of the use of LIBOR

The requirements of GASB Statement No. 99 that relate to the extension of the use of LIBOR, accounting for SNAP distributions, disclosures for nonmonetary transactions, pledges of future revenues by pledging governments, clarifications of certain provisions in Statement 34, and terminology updates took effect upon issuance.

The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter.

- B. <u>Compliance and Accountability</u>
 - 1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of financerelated legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

Violation None reported Action Taken Not applicable

2. Deficit Fund Balance or Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

	Deficit	
Fund Name	Amount	<u>Remarks</u>
None reported	Not applicable	Not applicable

C. <u>Deposits and Investments</u>

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledged securities in an amount sufficient to protect City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

Cash Deposits:

At September 30, 2022, the carrying amount of the City's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$20,556,942 and the bank balance was \$21,076,852. The City's cash deposits at September 30, 2022 and during the year ended September 30, 2022, were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name.

Investments:

The City is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must be written; primarily emphasize safety of principal and liquidity; address investment diversification, yield, and maturity and the quality and capability of investment management; and include a list of the types of authorized investments in which the investing entity's funds may be invested; and the maximum allowable stated maturity of any individual investment owned by the entity.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the general purpose financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the City adhered to the requirements of the Act. Additionally, investment practices of the City were in accordance with local policies.

The Act determines the types of investments which are allowable for the City. These include, with certain restrictions, (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds.

The City's investments at September 30, 2022 are shown below.

Investment or Investment Type	<u>Maturity</u>	<u>Fair Value</u>
General Fund		
Certificates of deposit	Various <1 year	\$ 5,000,000
Other Governmental Funds		
Certificates of deposit	Various <1 year	400,000
Total Investments		\$ 5,400,000

Analysis of Specific Deposit and Investment Risks:

GASB Statement No. 40 requires a determination as to whether the City was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the City was not significantly exposed to credit risk.

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities

CITY OF CARTHAGE, TEXAS NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2022

held by the pledging financial institution's trust department or agent but not in the City's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name.

At year end, the City was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the City was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the City was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the City was not exposed to foreign currency risk.

Investment Accounting Policy

The City's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

D. <u>Receivables</u>

Receivables reported in the governmental and proprietary funds as of September 30, 2022 consist of the following:

	Other						
		General	Governmenta	ıl	Proprietary		Total
Receivables:							
Property taxes	\$	315,851 \$	S	\$	9	\$	315,851

2. Transfers To and From Other Funds

Transfers to and from other funds at September 30, 2022, consisted of the following:

Transfers From	Transfers To	 Amount	Reason
General Fund	Other Governmental Funds	\$ 25,981	Fund overage on sidewalk project
	Total	\$ 25,981	[-·-]

G. Long-Term Obligations

The City has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas, which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the City.

1. Long-Term Obligation Activity

Long-term obligations include debt and other long-term liabilities. Changes in long-term obligations for the year ended September 30, 2022, are as follows:

		Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental activities:	_			 	 	
General obligation bonds	\$	4,678,550 \$	\$ 	\$ 693,900	\$ 3,984,650	710,050

H. Risk Management

The City is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2022, the City obtained general liability coverage at a cost that is considered to be economically justifiable by joining together with other governmental entities in the State as a member of the Texas Municipal League Intergovernmental Risk Pool ("TML"). TML is a self-funded pool operating as a common risk management and insurance program. The City pays an annual premium to TML for its above insurance coverage. The agreement for the formation of TML provides that TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of acceptable risk levels; however, each category of coverage has its own level of reinsurance. The City continues to carry commercial insurance for other risks of loss. There were no significant reductions in commercial insurance coverage in the past fiscal year and settled claims resulting from these risks have not exceeded coverage in any of the past three fiscal years.

I. Pension Plan

TEXAS MUNICIPAL RETIREMENT SYSTEM

1. Plan Description

The City participates as one of 901 plans in the defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is a statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of TMRS with a six-member, Governor-appointed Board of Trustees; however TMRS does not receive any funding from the State of Texas. TMRS issues a publicly available Annual Comprehensive Financial Report (Annual Report) that can be obtained at www.tmrs.com.

All eligible employees of the City are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the member's benefit is calculated based on the sum of the member's contributions, with interest, the city-financed monetary credits with interest, and their age at retirement and other actuarial

factors. The retiring member may select one of seven monthly benefit payment options. Members may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the total member contributions and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Employee deposit rate	7.00%
Matching ratio (city to employee)	2:1
Vesting requirements	5 years
Service retirement eligibility	Vested and age 60 or 20 years and any age
Updated service credit rate	100% (Transfers)
Annuity increase	70.00%

Employees covered by benefit terms:

At the December 31, 2021 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	62
Inactive employees entitled to but not yet receiving benefits	44
Active employees	73
Total covered employees	179

3. Contributions

Member contribution rates in TMRS are either 5%, 6%, or 7% of the member's total compensation, and the City matching percentages are either 1:1 (1 to 1), 1.5:1 (1 1/2 to 1) or 2:1 (2 to 1), both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the City and any changes in benefits or actual experience over time.

Employees for the City were required to contribute 7.0% of their annual gross earnings during the fiscal year. The contribution rates for the City were 18.62% and 18.53% in calendar years 2021 and 2022, respectively. The City's contributions to TMRS for the year ended September 30, 2022 were \$855,359, and were equal to the required contributions.

4. Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2021, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.50% per year

Overall payroll growth 2.75% per year, adjusted down for population declines, if any

Investment Rate of Return 6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for

females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for active, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	35%	7.55%
Core Fixed Income	6%	2.00%
Non-Core Fixed Income	20%	5.68%
Other Public and Private Mkts	12%	7.22%
Real Estate	12%	6.85%
Hedge Funds	5%	5.35%
Private Equity	10%	10.00%
Total	100%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that Member and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

	Increase (Decrease)				
	Total Pension	Plan Fiduciary	Net Pension		
Changes in Net Pension Liability	Liability	Net Position	Liability		
	(a)	(b)	(a) - (b)		
Balance at 12/31/2020	\$ 34,645,014	\$ 31,157,397 \$	3,487,617		
Changes for the year					
Service cost	742,751		742,751		
Interest	2,306,711		2,306,711		
Change of benefit terms					

Difference between expected			
and actual experience	1,050,632		1,050,632
Changes of assumptions			
Contributions - employer		854,233	(854,233)
Contributions - employee		321,140	(321,140)
Net investment income		4,058,119	(4,058,119)
Benefit payments, including			
refunds of employee contributions	(1,685,783)	(1,685,783)	
Administrative expense		(18,794)	18,794
Other changes		128	(128)
Net changes	 2,414,311 \$	3,529,043 \$	(1,114,732)
Balance at 12/31/2020	\$ 37,059,325 \$	34,686,440 \$	2,372,885

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate.

	 Decrease in count Rate	Discount Rate	1% Increase in Discount Rate
City's net pension liability (asset)	\$ 7,165,108 \$	2,372,885 \$	6 (1,587,548)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in the Schedule of Changes in Fiduciary Net Position, by Participating City. That report may be obtained at tmrs.com.

5. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2022, the City recognized pension expense of \$103,608.

At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual	•	700.000		
economic experience	\$	790,668	\$	
Changes in actuarial assumptions		8,458		
Difference between projected and actual				
investment earnings				2,083,900
Contributions subsequent to the measure-				
ment date		608,598		
Total	\$	1,407,724	\$	2,083,900

\$608,598 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

TEXAS EMERGENCY SERVICES RETIREMENT SYSTEM (TESRS)

1. Plan Description

The Texas Emergency Services Retirement System (TESRS) administers a cost-sharing multiple employer pension system (the "System") established and administered by the State of Texas to provide pension benefits for emergency services personnel who serve without significant monetary remuneration. Direct financial activity for the System is classified in the financial statements as pension trust funds. The System issues a stand- alone financial report that is available to the public at www.tesrs.org.

Of the nine member State Board of Trustees, at least five trustees must be active members of the pension system, one of whom must represent emergency medical services personnel. One trustee may be a retiree of the pension system, and three trustees must be persons who have experience in the fields of finance, securities investment, and/or pension administration. On August 31 of the following years, contributing fire and/or emergency service department members participating in TESRS were:

	Contributing
	Departments
0000	000
2020	238
2021	239

Eligible participants include volunteer emergency services personnel who are members in good standing of a member department.

2. Benefits Provided

Senate Bill 411, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas, and eligibility requirements by board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for each of the next five years of service so that a member becomes 100% vested with 15 years of service.

Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percent multiplied by six times the governing body's average monthly contribution over the member's years of qualified service. For years of service in excess of 15 years, this monthly benefit is increased at a rate of 6.2% compounded annually. There is no provision for automatic post-retirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

3. Covered Membership

On August 31 of the following fiscal years, the pension system membership consisted of:

	2021	2020
Retirees and beneficiaries currently receiving benefits	3,843	3,837
Terminated members entitled to but not yet receiving benefits	1,706	1,787
Active participants	3,571	3,634

4. Funding Policy

Contributions are made by governing bodies for the participating departments. No contributions are required from the individuals who are members of the System, nor are they allowed. The governing bodies of each participating department are required to make contributions for each month a member performs emergency services for a department (this minimum contribution is \$36 per member and the department may make a higher monthly contribution for its members). This is referred to as a Part One contribution, which is the legacy portion of the System contribution that directly impacts future retiree annuities.

According to the state law governing the System, the State is required to contribute an amount necessary to make the System "actuarially sound" each year, which may not exceed one-third of the total of all contributions made by participating governing bodies in a particular year.

The board rule defining contributions was amended in 2014 to add the potential for actuarially determined Part Two contributions that would be required only if the expected future annual contributions from the State are not enough with the Part One contributions to provide an adequate contribution arrangement as determined by the most recent actuarial valuation. This Part Two portion, which is actuarially determined as a percent of the Part One portion (not to exceed 15%), is to be actuarially adjusted every two years based on the most recent actuarial valuation. Based on the actuarial valuation as of August 31, 2020, the Part Two contributions are not required for an adequate contribution arrangement.

Additional contributions may be made by governing bodies within two years of joining the System, to grant up to 15 years of credit for prior service per member. Prior service must have occurred before the department began participation in the System.

A small subset of participating departments have a different contribution arrangement which is being phased out over time. In this arrangement, contributions made in addition to the monthly contributions for active members are made by local governing bodies on a pay-as-you-go basis for members who were pensioners when their respective departments merged into the System. There is no actuarial impact associated with this arrangement as the pay-as-you-go contributions made by these governing bodies are always equal to benefit payments paid by the System.

5. Contributions Required and Contributions Made

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions are set by board rule, and there is no maximum contribution rate. For the fiscal year ended August 31, 2021, total contributions of \$3,813,748 were paid into TESRS by the political subdivisions served by the member volunteer emergency services personnel. The State appropriated \$1,329,224 for the fiscal year ended August 31, 2021.

The purpose of the biennial actuarial valuation is to determine if the contribution arrangement is adequate to pay the benefits that are promised. Actuarial assumptions are disclosed below.

The most recently completed biennial actuarial valuation as of August 31, 2020 stated that TESRS has an adequate contribution arrangement for the benefit provisions recognized in the valuation based on the expected total contributions, including the expected contributions both from the governing body of each participating department and from the State. The expected contributions from the State are state

appropriations equal to (1) the maximum annual contribution (one-third of all contributions to TESRS by governing bodies of participating departments in a year) as needed in accordance with state law governing TESRS and (2) approximately \$675,000 each year to pay for part of the System's administrative expenses.

6. Net Pension Liability

The System's net pension liability was measured as of August 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2020 and rolled forward to August 31, 2021.

Total pension liability	\$ 155,683,765
Plan fiduciary net position	144,969,613
System's net pension liability	\$ 10,714,152
Plan fiduciary net position as a percentage of the	
total pension liability	93.1%

Actuarial Assumptions

The total pension liability in the August 31, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	N/A
Investment rate of return	7.75%, net of pension plan investment
	expense, including inflation

Mortality rates were based on the PubS-2010 (public safety) below-median income mortality tables for employees and for retirees, projected for mortality improvement generationally using projection scale MP-2019.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage (currently 4.6%) and by adding expected inflation (3.00%). In addition, the final 7.5% assumption was selected by rounding down. The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

term Expected
Rate of Return (Arithmetic)
5.83%
5.94%
6.15%
7.25%
6.41%
4.48%
3.84%
1.99%
4.60%

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. No projection of cash flows was used

to determine the discount rate because the August 31, 2020 actuarial valuation showed that expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability (UAAL) in 30 years using the level dollar amortization method. Because of the 30-year amortization period with the amortization method, the pension plan's fiduciary net position is expected to be available to make all projected future benefit payments to current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the System, calculated using the discount rate of 7.5%, as well as what the System's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

	Decrease in scount Rate	Discount Rate	1% Increase in Discount Rate
City's proportionate share of the net pension liability	\$ 89,646 \$	27,428 \$	\$ (14,106)
System's net pension liability	35,017,805	10,714,152	(5,510,061)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TESRS financial report. That report may be obtained on the internet at www.tesrs.org.

7. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2022, the City reported a liability of \$27,428 for its proportionate share of the TESRS's net pension liability.

The net pension liability was measured as of August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions to the pension plan relative to the contributions of all participating departments to the plan for the period September 1, 2020 through August 31, 2021.

For the year ended September 30, 2022, the City recognized pension expense of \$(18,650).

At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows Resources
Differences between expected and actual economic experience Difference between projected and actual	\$		\$ 1,085
investment earnings			25,685
Changes of assumptions Contributions subsequent to the measure-			37
ment date Total	\$	14,076 14,076	\$ 26,807

\$14,076 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending

September 30, 2023. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement	
Year ending August 31:	
2022	\$ (7,245)
2023	(4,462)
2024	(8,419)
2025	(6,681)
	\$ (26,807)

AGGREGATION OF PENSION RELATED BALANCES

The following is an aggregation of pension related balances reflected in the financial statements:

	TMRS	TESRS	Total
Deferred outflows of resources related to pensions	\$ 1,407,724 \$	14,076 \$	1,421,800
Net pension liability	2,372,885	27,428	2,400,313
Deferred inflows of resources related to pensions	2,083,900	26,807	2,110,707
Pension expense/expenditures	103,608	(18,650)	84,958

J. Other Post-Employment Benefits

Supplemental Death Benefits Plan

1. Plan Description

Texas Municipal Retirement System (TMRS) administers a defined benefit group-term life insurance plan known as the Supplemental Death Benefit Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. Employers may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1. The City has elected to participate in the SDBF for its active members including retirees. As the SDBF covers both active and retiree participants, with no segregation of assets, the SDBF is considered to be an unfunded single-employer OPEB plan (i.e. no assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75) for City reporting.

2. Benefits Provided

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered an other post employment benefit (OPEB) and is a fixed amount of \$7,500.

At the December 31, 2021 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees currently receiving benefits	50
Inactive employees entitled to but not yet receiving benefits	14
Active employees	73
Total	137

3. Contributions

The member city contributes to the SDBF at a contractually required rate as determined by an annual

actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employees' entire careers.

Contributions are made monthly based on the covered payroll of employee members of the participating member city. The contractually required contribution rate is determined annually for each city. The rate is based on the mortality and service experience of all employees covered by the SDBF and the demographics specific to the workforce of the city. There is a one-year delay between the actuarial valuation that serves as the basis for the employer contribution rate and the calendar year when the rate goes into effect. The funding policy of this plan is to assure that adequate resources are available to meet all death benefit payments for the upcoming year.

The retiree portion of contribution rates to the SDBF for the City were 0.19% and 0.20% in calendar years 2021 and 2022, respectively. The City's contributions to the SDBF for the year ended September 30, 2022 were \$9,087, and were equal to the required contributions.

4. Total OPEB Liability

The City's Total OPEB Liability (TOL) was measured as of December 31, 2021, and was determined by an actuarial valuation as of that date.

5. Actuarial Assumptions

The Total OPEB Liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Salary increases	3.5% to 11.5% including inflation
Discount rate	1.84%
Retiree's share of benefit-related costs	

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for active, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality is applied, for males and females, respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

These actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation.

The discount rate used to measure the Total OPEB Liability was 1.84% and was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2021.

6. Changes in the Total OPEB Liability

	Total
	OPEB
	Liability
Total OPEB liability - December 31, 2020	\$ 416,472
Changes for the year:	
Service cost	16,516
Interest on total OPEB liability	8,407

CITY OF CARTHAGE, TEXAS NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2022

Differences between expected and actual experience	(760)
Changes in assumptions or other inputs	12,743
Benefit payments	(8,717)
Net changes	 28,189
Total OPEB liability - December 31, 2020	\$ 444,661

7. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate.

The following presents the total OPEB liability of the City, calculated using the discount rate of 1.84%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1% lower (.84%) or 1% higher (2.84%) than the current rate:

	1% Decrease		Discount	1% Increase in
	Discount Ra		Rate	Discount Rate
City's total OPEB liability	\$	537,087 \$	444,661	\$ 372,444

8. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended September 30, 2022, the City recognized OPEB expense of \$40,223. At September 30, 2022, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	-	Deferred Outflows of Resources	 Deferred Inflows of Resources
Differences between expected and actual experience	\$		\$ 10,302
Change in assumptions and other inputs		57,052	
Contributions made subsequent to measurement date		6,569	
Total	\$_	63,621	\$ 10,302

\$6,569 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability for the year ending September 30, 2023. Amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement	
Year ending December 31:	
2022	\$ 16,143
2023	17,700
2024	11,188
2025	1,719
	\$ 46,750

K. Commitments and Contingencies

1. Contingencies

The City participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the City has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the City, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the City at September 30, 2022.

3. Commitments

On 6/27/22, the City approved a \$3,124,924 contract for water meter replacements. Funding was provided and held in escrow as of 9/30/22, but the meters were not received as of that date.

At 9/30/22, the City was obligated for the purchase of equipment totaling \$257,265 in the General Fund and \$318,926 in the Water & Sewer Fund. The equipment was ordered prior to 9/30/22 but not received until after that date.

On 9/12/22, the City approved a bid for Phase I Wastewater Treatment Plant Improvements at a cost of \$1,570,500. Funding for this project will be provided by Certificates of Obligation to be issued after 9/30/22.

L. <u>Tax Abatements</u>

1. Property Tax Abatements

The City enters into property tax abatement agreements with local businesses under Texas Local Government Code Chapter 312. The tax abatement is an economic development tool used to attract new industries and to encourage the retention and development of existing businesses through property tax exemptions or reductions.

The City negotiates property tax abatement agreements on an individual basis. The City has tax abatement agreements with three entities as of September 30, 2022:

	Percentage of Taxes	Amo	ount of Taxes
	Abated During the	Aba	ted During
Purpose	Fiscal Year	the	Fiscal Year
Provide additional lodging opportunities	60%	\$	3,309
Expand and retain local businesses	60%		3,807
Build a business park	100%		4,183
		\$	11,299

2. Rebate of Utility Infrastructure Costs

The City's Code of Ordinances Appendix B allows for 50% of the cost of installing water and sewer lines to be returned to the developer upon occupancy and payment of Panola County taxes by the new occupants. The developer is subject to a 15 year time limit that begins on the date the City approves the subdivision or business park.

The City is currently in the process of tracking the progress of a subdivision with the developer. The City has paid a total of \$100,830 to the developer with \$20,709 of that amount occurring during the year ended September 30, 2022.

The City is currently in the process of tracking the progress of a business park with the developer. The City has paid a total of \$40,978 to the developer with \$6,731 of that amount occurring during the year ended September 30, 2022.

M. Closure and Postclosure Care Cost

30 Texas Administrative Code (TAC) requires the City to be financially capable of properly closing their municipal solid waste transfer station (Permit No. MSW 40172), if it becomes necessary. Closure costs will be paid only near or after the date that the station ceases operations so the City will not report any of these closure costs as operating

expenses until the closure actually occurs. The estimated closure cost is \$14,719.

All cost estimates are in 2021 dollars (based on most recent inflation factors provided by TCEQ) and actual costs may be higher due to inflation, changes in technology, or changes in regulations. The City demonstrated its financial assurance for these closure and post-closure care costs by submitting a financial test to the Texas Commission on Environmental Quality as specified in 30 Texas Administrative Code (TAC) Chapter 37.

N. <u>Tax Revenue</u>

The source of tax revenues reported in the governmental funds is detailed below:

		Other General Governmental Fund Funds Total 1,682,611 99,804 1,782,415 4,543,261 1,508,997 6,052,258 386,879 386,879		
	_	Fund	Funds	Total
Property taxes, penalty and interest	\$	1,682,611	\$ 99,804 \$	1,782,415
Sales and beverage taxes		4,543,261	1,508,997	6,052,258
Hotel occupancy tax			386,879	386,879
	\$	6,225,872	\$1,995,680 \$_	8,221,552

O. Fund Balance/Net Position Restrictions

Certain fund balances are restricted to special purposes as follows:

			Other	
		G	Governmental

Municipal court jury fee	243
Police department - purchase vests	10,241
Park donations	48,423
Police department drug seizure funds	45,345
	\$544,049

P. <u>Subsequent Events</u>

Management has evaluated subsequent events through February 10, 2023, the date on which the financial statements were available to be issued.

On October 1, 2022, the City issued Certificates of Obligation in the amount of \$5,495,000 to provide funding for wastewater treatment plant improvements and a water tower rehabilitation project.

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

Notes to Schedule

Valuation date:

Actuarially determined contribution rates are calculated as of December 31, and become effective in January, 13 months later.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	24 years
Asset valuation method	10-year smoothed market; 12% soft corridor
Inflation	2.5%
Salary increases	3.5% to 11.5%, including inflation
Investment rate of return	6.75%
Retirement age	Experience-based table of rates that are specific to the City's plan of benefits.
	Last updated for the 2019 valuation pursuant to an experience study of the period 2014-2018.
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP.
	Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a
	fully generational basis with scale UMP.

* This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, this schedule provides the information for those years for which information is available.

The TMRS Supplemental Death Benefit Fund (SDBF) is considered to be an unfunded OPEB plan; therefore, no plan fiduciary net position and related ratios are reported in the above schedule. No assets are accumulated in a trust that meets the criteria of GASB Statement No. 75, paragraph 4.

* This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, this schedule provides the information only for those years for which information is available.

Combining Statements and Budget Comparisons as Supplementary Information

This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

CITY OF CARTHAGE, TEXAS GOVERNMENTAL FUNDS SEPTEMBER 30, 2022

SPECIAL REVENUE FUNDS

To account for revenues that are legally restricted to expenditures for particular purposes.

BUDGETED FUNDS

Hotel-Motel Occupancy Tax Fund: To account for the levy and utilization of the hotel-motel room tax. State law requires that revenues from this tax be used for advertising and promotion of the City.

Carthage Economic Development Corporation: To account for economic development corporation funds for the promotion and development of new and expanded businesses. (A component unit.)

Carthage Improvement Corporation:

To account for improvement corporation funds for the promotion and development of new and expanded businesses and for various other City projects that provide quality of life improvements. (A component unit.)

NON-BUDGETED FUNDS

Drug Seizure Fund:

To account for confiscated assets seized by law enforcement officers. This fund is restricted to law enforcement use only.

Texas Community Development Block Grant Project 712262: To account for a Main Street Grant project.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid primarily from taxes levied by the City. The fund balance of the Debt Service Fund is reserved to signify the amounts that are restricted exclusively for debt service expenditures. **CITY OF CARTHAGE, TEXAS**

STATISTICAL SECTION

Unaudited

STATISTICAL SECTION (UNAUDITED)

This section of the City's ACFR presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. The independent auditor has not audited this information.

CONTENTS	PAGES
FINANCIAL TRENDS	
These schedules contain trend information to help the reader understand how the City's financial performance and well-being changed over time.	80-84
REVENUE CAPACITY	
These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax and sales tax.	85-93
DEBT CAPACITY	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	94-98
DEMOGRAPHIC AND ECONOMIC INFORMATION	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	99-101
OPERATING INFORMATION	
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	102-106
<u>SOURCES:</u>	

Unless otherwise noted, the information in these schedules is derived from the City's annual comprehensive financial reports for the relevant year.

(1) Net (expenses) is the difference between the expenses and program revenues. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus reliance upon funding from taxes and other general revenues. Numbers with parentheses are net expenses, indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

The City has adopted the provision of V.T.C.A., Tax Code, Chapter 321, as amended, which grants the City the power to impose and levy a 1.5 % Local Sales and Use Tax within the City. The proceeds are credited to the General Fund and may not be pledged to debt service and are not pledged to the payment of debt. Collections and enforcement are effected through the offices of the Comptroller of Public Accounts, State of Texas, who remits the proceeds of the tax, after deduction of a 2% service fee, to the City monthly.

Note: Due to confidentiality issues, the names of the ten largest revenue payers are not available. The categories presented are intended to provide alternative information regarding the sources of income. The tax revenue includes the City sales tax rate of 1.50% and the two blended component unit rates of .25% each. Sales tax totals are based on when payment was actually received.

CITY OF CARTHAGE LEGAL DEBT MARGIN INFORMATION

Article XI, Section 5 of the State of Texas Constitution states in part: "...no tax for any purpose shall ever be lawful for any one year, which shall exceed two and one-half percent of the taxable property of such city."

As a home rule city, the City of Carthage is not limited by law in the amount of debt it may issue.

The tax rate for fiscal year 2022 was established at \$.6014 per \$100 of assessed valuation based on 100% of appraised value, which includes \$.2335 for the payment of principal and interest on general obligation bonds.

Independent Auditors' Report on Internal Control over Financial Reporting and On Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance With *Government Auditing Standards*

Mayor and City Commission City of Carthage, Texas 812 West Panola Carthage, Texas 75633

Karen A. Jacks, CPA, CGMA

Peggy J. Lantz, CPA

Mayor and City Commission:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Carthage, Texas, as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise City of Carthage, Texas' basic financial statements, and have issued our report thereon dated February 10, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Carthage, Texas' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Carthage, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of City of Carthage, Texas' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Carthage, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests

disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
